PROJECTS

Mahi's Fashion — E-Commerce *Live Link* / *Github*

Tech stack: React, Node.js, Express, Prisma, Neon(PostgreSQL), Cloudinary, JWT

- Built a full-stack e-commerce web application allowing users to browse products by category, search with dynamic filters, manage their cart, and place orders.
- Implemented serverless PostgreSQL database management using Prisma ORM with Neon, integrated Cloudinary for scalable product image uploads, and built secure JWT authentication with role-based access.
- Impact**:** Reduced page load times and optimized overall performance by leveraging Prisma ORM with Neon for efficient data fetching and Cloudinary for fast media delivery.
